

Tejas Badgujar

Software Engineer | Java | Spring Boot | Microservices

☎ +91 9834824061 | @ tejasabad@gmail.com | 🔗 LinkedIn | 🐙 GitHub | 🟩 Leetcode | 📍 Pune, India

Experienced **Java** backend developer with over 3+ years of expertise in building scalable enterprise applications using **Spring Boot**. Strong background in designing and optimizing RESTful APIs, handling real-time data processing with **Kafka**, and ensuring efficient database management. Skilled in developing robust payment processing systems with a focus on performance, reliability, and transaction consistency.

WORK EXPERIENCE

Accenture

Pune, India

Software Engineer Analyst

Sept 2022 – Present

- Over 3 years of experience in backend development using **Java, Springboot, and Microservices for enterprise-grade applications in the banking domain.**
- Specialized in designing and maintaining highly scalable microservices to support robust payment processing systems.
- Extensive experience with **Kafka** for real-time data processing and messaging solutions, enabling efficient, low-latency data handling.
- Skilled in developing and implementing **REST APIs** to ensure seamless communication between services.
- Strong foundation in **Object-Oriented Programming (OOP)**, solid principles and software design patterns, creating scalable, maintainable solutions.
- Proficient in database management with expertise in query optimization, transaction handling, and data consistency across microservices.
- Strong experience with Spring and Spring Boot, Spring MVC, Spring Data, Spring Security

PROJECTS

Payments HUB (Client : Barclays)

- Optimized payment workflows using Java, resulting in a 15% increase in bulk payment processing speed for payment processing system.
- Worked on Payment Order Management System and created multiple services with Java and Spring boot with kafka and MQ.
- resolved multiple production issues which caused payment failures.
- Developed multiple services using Java and Spring Boot, enabling modular payment processing across a multi-bank network.
- Created REST API with spring boot to integrate payment lifecycle status across multiple services.
- Implemented CI/CD pipelines using Jenkins to automate build, test, and deployment processes, improving development efficiency.

SKILLS

Programming Languages : Java, Python, JavaScript, TypeScript, C++, HTML, CSS, JSON

Frameworks/Libraries : Spring boot, Microservices, Kafka, REST, JWT, Junit, Angular

Database : MySQL, Oracle SQL, Postgresql

Version Controls : Git, Github, Bitbucket, Nexus

Others : Maven, Jira, Jenkins, Docker, JPA, SDLC, IntelliJ, VScode, Linux, Putty, WinScp
Tomcat

EDUCATION

Bachelor of Engineering (B.E.)

Sinhgad Institute of Technology (SPPU)

CGPA - 8.79/10

Aug 2018 – Jun 2022

CERTIFICATES

Azure Fundamentals (AZ-900)

Microsoft Azure Fundamentals Certification
